Ifourni Service **FARMERS' BEST HELPER!**

IFOURNI insists on "Doing by heart". We put our hearts into crafting our products, researching the market, and serving our customers. Through high-quality pre-sales, in-sales, and after-sales services, we ensure that customer interests are protected and establish closer cooperation with them. By creating products and services with care, we make farmers' work easier when using IFOURNI products.

About IFOURNI

IFOURNI Technology is focused on the research and development, manufacturing, and sales of knapsack sprayers. For the past decade, we have adhered to a philosophy of "quality first" and have created manual and electric backpack sprayers that are world-leading in terms of quality and technology. Our products have passed EU standard testing and are exported to more than 40 countries worldwide, winning recognition and love from local customers.

In addition, we have established a farm machinery division to provide customers with products such as small tractors, tillers, seeders, mowers, generators, and various food processing machinery.

Superior agricultural implements supplier

We are committed to continuously creating high-quality and affordable small farm machinery and providing customers with a one-stop-shop and multiple farm tools with less than container load (LCL) services that can help improve our client's cash flow and broaden their product offerings, allowing them to have more business opportunities.
